The verification of conformity is based on an evaluation of a sample of the above-mentioned product. Technical report and documentation are at the applicant's disposal. This is to prove that the tested sample is in compliance with all revision of Annex III of council directive 2014/30/EU, in its latest amended version, referred to EMC directive. And, this is only a verification based on the analysis of the product, component or materials, not on assessment of the products or the production procedure. It refers only to the sample submitted and does not certify the quality or safety of the serial products. After preparation of the necessary technical documentation as well as EU declaration of conformity the required CE marking can be affixed on the product. Other relevant directives have to be observed.
